

Traffic Film Remover Heavy Duty

Description

A heavy duty manufacturing base traffic film remover developed for pressure cleaning via jet wash equipment. It can be pre-diluted with 4 parts water to make up a quality traffic film remover ready for use. The product can then be diluted through the machine at normal working concentrations to perform a quality clean.

Directions

Normally dosed at 1-5% after pre-dilution (or 0.2-1.0% if neat). Be careful not to overdose the concentrate. As with all detergents do not allow to dry on vehicle as staining may result.

Health & Safety

Classification

CORROSIVE (Contains Sodium Hydroxide and Sodium Metasilicate)

Risk phrases

R35 Causes severe burns.
